The Writers of the Future writing contest was initiated by L. Ron Hubbard in 1983 to provide “a means for new and budding writers to have a chance for their creative efforts to be seen and acknowledged.” Based on its success, its sister contest, Illustrators of the Future was created five years later to provide that same opportunity for the aspiring artist.

Throughout the Contests’ 36-year history, 786 writers and illustrators have been recognized as winners.

The intensive mentoring process has proven very successful. The 428 past winners of the Writing Contest have published 1,150 novels and nearly 4,500 short stories. They have produced 33 New York Times bestsellers and their works have sold over 60 million copies.
